

DILLY - THE NATIONAL PARK RESORT

# COMMANDMENTS FOR SUSTAINABILITY VACATION WITH A GOOD FEELING. WE ARE THINKING OF TOMORROW TODAY.

NATURALLY CONSCIOUS AND CERTAINLY CONSCIOUS NATURALLY.  
IN ACCORDANCE WITH THIS MOTTO WE WILL PAMPER YOU IN  
EVERY AREA OF OUR RESORT IN THE CALCALPS NATIONAL PARK.  
IT IS IMPORTANT FOR US THAT GUESTS AND RESIDENTS WILL  
ENJOY THE NATURE AROUND DILLY IN MANY YEARS LIKE TODAY.  
THAT'S WHY WE LOVE EVERYTHING SUSTAINABLE  
AND REGIONAL.

# REGIONAL PRODUCTS, SUPPLIERS & COMPANIES

## I.

### GOOD PRESERVATION.

In the Dilly National Park Resort it is cooked and pickled, smoked and whipped, stewed and fried as it has always been in the national park region Kalkalpen.

### FRESH AND REGIONAL.

Almost all of the ingredients in Dilly National Park cuisine come from the region and the surrounding area. This also counts fruit and vegetables, fish and eggs, meat and butter. The free-range eggs have particularly short distances, sheep and goat cheese from the local farmers or the collected chanterelles from the regional forests.

### INDEPENDANT.

In Dilly we also have another tradition of the National park farmers – self-sufficiency. From oven-fresh house bread to hot and cold smoked specialties, to jams that have been boiled down. You can enjoy many regional homemade delicacies here with us.

### RESPONSIBLY ENJOYMENT WITH THE "U 100 R"-CONCEPT:

**At least 80% of the food is bought from regional suppliers within a 100 km radius**

- We source our beef and pork from our partner OBERIO Hofgenau – the meat brand from the house of gourmetfein – and it guarantees:
  - 100% Upper Austrian origin
  - 100% GMO & glyphosate-free feed
  - 100% sustainable agriculture
- 100% game meat from the Federal Land of Salzburg
- 100% of our fish come from sustainable fishing from fish farming in Molln in the Kalkalpen National Park
- 100% of the fresh organic milk and cheese come from Upper Austria
- 100% of the organic eggs and chicken come from local farmers
- Vegan catering in all culinary areas
- Favoring local suppliers and small-scale agriculture
- Many of our spices come from close-by.

### HAND IN HAND WITH NATURE.

The cuisine at the Dilly National Park Resort is oriented respectfully to the nature and the seasons: there is always something, that natural cycle can offer us. We are there mindful of the animals as well as the farmers, hunters and also towards the guests: we use not only the fine parts of beef, pork or deer, but also refine everything and transform it with exceptional care in specialties.

### RESPECTFULL AND NATIVE.

We honor the knowledge of Dilly Grand and Great-grandmothers that they passed from generation to generation. That's why you enjoy many of the specialties in a pure way that were prepared according to the old regional recipes (since 1906) in the Dilly National Park Resort.

## LINEN CHANGE AS REQUIRED

III.

### RESOURCE-SAVING.

We protect the environment by using less energy, water and detergent consumption with full comfort for you. You put dirty laundry on the bathroom floor – and we are happy to exchange them for fresh one. Receive fresh sauna towels you may always get at the reception. Noble, reusable leather placemats prevent unnecessary table linen consumption.

# WASTE SEPARATION AND WASTE PREVENTION

V.

## LESS IS MORE - FOR NATURE AND NATIONAL PARK.

We prevent and separate our garbage. Will you help us? You will have a lot of opportunities through our waste separation system (in the parents' kitchen as well as the ski room) at any time. Would you rather sit back and enjoy your vacation? Then we'll do it for you with the pleasure.

Avoiding waste is even better than sorting waste. Therefore we are step by step on the way to Hotel without plastic. We rely on plastic and packaging-free products. Plastic straws and bags are disused. The swim bags are reusable, as are the cups in the spa area (for your safety are glass-free).

# FUTURE ENERGY CONCEPTS WITH GREEN ENERGY

VII.

## WITH THE POWER OF NATURE.

The Dilly National Park Resort is powered by solar energy. A special measurement and control technology enables energy savings with full comfort for optimal use throughout the house.

Innovative armature minimize the water consumption. We use even the rainwater – for irrigation of the soccer field and the snow cannon.

# FRESH MOUNTAIN SPRING WATER

VIII.

## BUBBLING LIVELINESS.

Our water comes from a nearby pure limestone drinking water source of the National Park Kalkalpen and it is very tasty.

# ENVIRONMENTAL PROTECTION BY DIGITALIZATION

IX.

## ONLINE INSTEAD OF PRINTED.

Our resort information and weekly program points are always up-to-date digitally on the mobile phone or the room tablet.

The printed forms are available for downloading on our website. Even with their production we pay attention to sustainability.

# GREENCLEANING AND ECOLOGICALLY FRIENDLY CLEANING PRODUCTS

X.

## TIDINESS FOR INSIDE AND OUTSIDE.

We use sustainably certified cleaning agents and work according to HACCP standards (which, in addition to the best hygiene, also offer you the greatest possible health protection). By introducing steam cleaning machines, we even save 80% on cleaning chemicals. Housekeeping eco? Logical!
